VITA Contract Scope

Carahsoft VITA Website

Authorized Entities:

The VITA contract is mandatory for IT procurement for all Executive Branch agencies and is optional for other public bodies. This includes colleges, universities, and all local government entities, incuding cities and counties.

Description of eVA:

eVA is Viriginia's online, electronic procurement system. It allows state agencies, colleges, universities, and many local governments to conduct all purchasing and sourcing activities for goods and services. eVA allows for state, and local, and education agencies to post bidding opportunities, get quotes, and place orders. It is a viable source of procurement throught the VITA contract.
