

REQUEST FOR VMWARE TRAINING VOUCHER

The Army is offering a VMware training voucher program through the VMware Enterprise License Agreement (ELA). The program includes courses designed to provide Army personnel training on the management, installation and configuration of VMware products.

Training is available on demand and online 24/7. Each course is estimated to require one week to complete and includes a built-in practice lab. Students will have 45 consecutive day access to their practice lab, once they register for the course and redeem their training voucher. Students will have access to the course content for one year.

To obtain a training voucher, please provide the information requested below and send the completed and signed form to: **armyelapso@vmware.com**. Only one request form per course, per student can be processed at a time. Access to training is limited, so your government civilian/military supervisor's approval is required. If you have additional questions, please contact the CHESSE Help Desk at (888) 232-4405 or VMware at: **armyelapso@vmware.com**.

COURSE OFFERINGS	SELECT ONLY ONE
