

Public Sector Procurement Vehicles & Contracts

Carahsoft serves as the master government aggregator and distributor for Virtustream. Through this partnership, we provide public sector organizations with easy access to Virtustream’s solutions to help meet the needs of securing, managing and storing mission-critical data in the cloud.

Carahsoft offers expertise in government procurement processes and practices, and holds numerous contracts that enable Virtustream to sell to state, county and local government agencies; educational institutions; and the federal government. Virtustream’s solutions are available through the contracts and purchasing agreements highlighted below.

State and Local Government Contracts & Education Procurement Vehicles

Carahsoft holds state-, city-, county-, and technology-specific contracts that accelerate procurement for government agencies and educational institutions. In addition, through GSA’s Cooperative Purchasing Program, state, local, and tribal governments can purchase through specific GSA Schedule contracts.

Carahsoft also partners with resellers who focus on states and regions throughout the country. Through these teaming arrangements, Carahsoft and Virtustream also have access to these vehicles.

Cooperative Purchasing Contracts for State/Local Government and Education
