

## **AlarmPoint System Announces Alert Management platform available on GSA**

*New Reseller Agreement launched with leading technology provider, Carahsoft Technology Corp.*

**PLEASANTON, CA. – March 3, 2009** - AlarmPoint Systems, provider of the leading Actionable Information Delivery platform, today announced a new partnership with Carahsoft Technology Corp., the trusted government information technology provider and premier schedule holder of the United States Federal Government. This agreement allows government agencies to purchase AlarmPoint products and services through an AlarmPoint Government Schedule Agreement (GSA) with Carahsoft. The GSA is the contract vehicle used by government agencies to select vendors, which must meet stringent criteria to be placed on the schedule.

“The Carahsoft team is a rapidly growing, innovative solutions provider. Perhaps the leading provider to the Federal government, Carahsoft has a proven history of ensuring their customers find the best possible technology solution at the best value,” said Troy McAlpin, AlarmPoint CEO. “With extensive knowledge and dedication to government agencies, Carahsoft and AlarmPoint can assist with communications solutions to accelerate processes and drive efficiencies across IT and other critical assets.”

AlarmPoint will look to Carahsoft to provide government focused sales and marketing combined with an expert fulfillment infrastructure as well as simplify the ordering process and deliver value to the Federal Government. Alert Management, a fast growing industry, allows government agencies to target and deliver events from monitoring, helpdesk and other applications, speeding resolution and reducing costs.

“We are pleased to serve as AlarmPoint’s government partner,” said Craig P. Abod, president of Carahsoft. “The firm’s products address a mission-critical need for our government customers, and with certified integration with HP Software, AlarmPoint’s industry-leading Event Notification and Alert Management solutions greatly enhance our HP Business Technology Optimization Team’s portfolio.”
