## Carahsoft Receives Top Newcomer Partner Award From Kofax

Reston, VA -- February 1, 2011 -- [Carahsoft Technology Corp.](#), the trusted government IT solutions provider, today announced that it has received the Top Newcomer Partner award from [Kofax, plc.](#), the leading provider of document-driven business process automation solutions. The award was presented at the Kofax Transform 2011 Americas event held in San Diego, CA, January 17-18, 2011.

Carahsoft, which serves as a Kofax government reseller and distributor, was recognized as the most successful newcomer to the Kofax Global Partner Program, which encompasses more than 700 partners and resellers.

In presenting the award, Alan Kerr, Executive Vice President of Field Operations at Kofax, said: "We're pleased to recognize Carahsoft for its outstanding contribution to our business in 2010. Carahsoft's government expertise and its unique, proactive sales and marketing model have delivered quick results, particularly in the federal market, and we look forward to expanding that success across the entire public sector in the years to come."

In addition to recognizing its top performing partners, Kofax also recognized its leading customers during the conference, including a large branch of the U.S military that recently standardized on Kofax's software to improve its human resource processes. Carahsoft worked closely with Kofax's sales team to close this multi-million contract in August 2010.

"Carahsoft has built our reputation by delivering value and building that momentum from the first day of our engagement with a partner, and that's exactly what we've done with Kofax," explained Michael Shrader, Carahsoft sales director. "We are incredibly honored to be recognized in this way, and we look forward to working with the Kofax public sector team and its reseller partners to increase demand for their award-winning solutions."

Kofax solutions enable government organizations to securely automate their paper-driven business processes to improve service to constituencies, increase efficiency, reduce processing costs, and achieve regulatory compliance.
