

FOR IMMEDIATE RELEASE

**CARASOFT AND VERDIEM TEAM TO PROVIDE GOVERNMENT WITH
LEADING POWER MANAGEMENT SOFTWARE**

*Verdiem Awarded GSA Contract Schedule with Carahsoft
Several Federal Agencies Already Cutting PC Energy Bills Up to 60% &
Associated Carbon Emissions Up To 40%*

Reston, VA – June 3, 2008 – Carahsoft Technology Corp., a trusted government IT solutions provider, today announced a partnership with Verdiem, the leading developer of power management software for PC networks. The companies will jointly market the Verdiem SURVEYOR technology to federal agencies, helping them address Executive Order 13423 by cutting required power for their PC networks by as much as 60%.

“We are very pleased to include Verdiem’s cost-efficient, green IT solution on our GSA schedule and act as the lead GSA Schedule partner for Verdiem,” said Carahsoft President, Craig P. Abod. “The addition of this energy saving and power management technology further enhances Carahsoft’s range of Virtualization and Green IT solutions.” Under the agreement, Carahsoft will add Verdiem products to its GSA schedule and provide proactive sales and marketing and technical support to drive demand for the products within the public sector marketplace and to Carahsoft’s Government reseller and integrator partners.

“Several federal agencies – including NASA, National Institutes of Health and the Department of Energy – are already using software from Verdiem to significantly cut their PC power bills and IT carbon footprint,” said Kevin Klustner, CEO of Verdiem Corp. “We look forward to helping the rest of the federal government significantly reduce its IT carbon footprint and environmental leadership.”

Carahsoft’s GSA listing for Verdiem products (GS-35F-0131R) became effective April 7, 2008. For more information, contact Carahsoft at 888-686-9273 or sales@carahsoft.com. About Verdiem:

Verdiem is the leading developer of power management software for PC networks. Verdiem's SURVEYOR software provides measurable energy and cost savings, simplified and automated management of PC power options, and painless implementation that comes with minimal maintenance and a rapid payback. The development of SURVEYOR was funded in part by the Northwest Energy Efficiency Alliance, and the software is approved as a conservation measure by utilities and power producers throughout North America. Verdiem is a recognized partner in the EPA's *EnergyStar* program and was recently awarded Premier Partner status in the U.S. Department of Energy's *Rebuild America* program.
