Carahsoft Is Top Revenue Producer on 2010 Washington Technology Fast 50

Reston, VA - October 8, 2010 - Carahsoft Technology Corp., the trusted government IT solutions provider, today announced that it has been named to the [2010 Washington Technology Fast 50 list](#) of the fastest growing government IT companies in the Washington D.C. area.

With 2009 revenue of more than \$585 million, Carahsoft is the [largest revenue producer](#) on this year's list, and ranked #29 based on its compound annual growth rate of 100.25%. This is the second consecutive year Carahsoft has been named to Fast 50 list.

"We're honored to be included again this year on the Washington Technology Fast 50 list," said Craig P. Abod, Carahsoft president. "Our ability to deliver triple digit revenue growth year over year speaks to our team's commitment to delivering value every day to our partners and our government customers."

To be eligible for the Fast 50, companies must be based or have sales offices in the Greater D.C. area and must meet the government criteria for small business or be a member of the 8(a) program. Selection is based on percentage growth of government revenue over a period of five years.

This is the second distinction Carahsoft has received from Washington Technology this year. In May, Carahsoft ranked at #99 in its first appearance on the publication's [Top 100 Prime Government Contractors](#), a ranking derived from an analysis of government procurement data.
