**iAvue Human Resources Software Now Available on Carahsoft GSA Schedule
Solution Replaces Office of Personnel Management's USA Jobs 'Employer Services' and
Provides More Robust Online Job Posting Management Capabilities**

Reston, VA -- July 6, 2011 -- [Carahsoft Technology Corp.](http://www.carahsoft.com), the trusted government IT solutions provider, today announced that it has added iAvue to its General Services Administration Schedule. Developed by Avue Technologies, the market leader and technology innovator in public sector platforms for operations management, iAvue replaces job posting and editing functionality recently discontinued by the Office of Personnel Management's Employer Services.

"For a number of years we have been looking for the opportunity to bring the power of Avue to individual users whose agencies are not subscribers to Avue's enterprise human capital offering," says Linda E. Brooks Rix, co-CEO of Avue Technologies. "With OPM's termination of the USAJobs Employer Services access on July 1, we saw iAvue--our replacement of that functionality--as a perfect starting point for this more individually targeted offering."

iAvue enables users to post positions to avuecentral.com and USAJobs, and to electronically verify the posting, receive the job reference code, and manage updates to the posting. Over the next few months, Avue will build upgrade options on the initial iAvue offering to provide an entire range of Avue capabilities that otherwise would not be available to individuals, including applicant assessment tools and the ability to create a talent pool of applicants for evaluation.

"The iAvue solution addresses an immediate need for agencies that had been reliant on OPM's Employer Services functionality, but it also delivers additional capabilities that will improve overall management of the online job posting process," said Craig P. Abod, Carahsoft president.

For pricing and more information, visit www.carahsoft.com/avue or [register](#) for **Improve Online Job Posting and Management With iAvue**, a complimentary webcast being held at 2 p.m. (EST), Wednesday, July 20, 2011.
