

ADOBE® ACROBAT® CONNECT™ PROFESSIONAL for First Responders

They respond in minutes. Train them the same way.

Efficient, effective training makes for efficient, effective first responders. In today's world, police officers, fire departments, and emergency medical professionals are asked to manage a growing list of threats. Responders from multiple jurisdictions need a way to rapidly, easily and securely share a wide range of information to make the right decisions.

How to Buy

To receive more information about Adobe Acrobat Connect Professional, or to receive a free trial version, please contact your preferred reseller or your Adobe Government account manager at govsales@adobe.com or call **888-649-2990**.

Adobe Acrobat Connect Professional, is available on the GSA and other purchasing vehicles.

Acrobat Connect Professional allows your team to transfer maximum knowledge in minimum time. This innovative solution elevates online training and web conferencing to a whole new level by delivering secure, highly interactive communications that everyone can access instantly through any web browser, over virtually any bandwidth. With the unique combination of real-time and on-demand communication options available in Acrobat Connect Professional you can offer a richer experience to a broader audience, augment traditional training classes, and empower first responders to access instruction anytime, anywhere.

Easily create a library of on-demand courses with rich media, audio, and video using familiar tools like Microsoft® PowerPoint®. Easily administer training and evaluate your team's performance with complete course management, assessment, and tracking tools. Because Acrobat Connect Professional is deployable in nearly any environment—from desktop computer to patrol car—even the most remote teams can remain up to date.

The Adobe product family leverages the power of Flash® Player to deliver your content. Already packaged in 98% of commercial, off-the-shelf web browsers, Flash Player gives you the flexibility you need to deploy your on-demand content through any standard browser—even over a dial-up connection. Because no special client-side software is needed, it's easy to securely extend training and response coordination to members of the community or other city, state, or federal agencies. The powerful combination of Acrobat Connect Professional and the Flash platform reduces client-side software management and enables your rich, interactive training content to be cross-platform and mobile.

ADOBE CONNECT PROFESSIONAL for First Responders

Sharply reduce the cost of mandatory in-service training. First responders can access required training whether they are in the office or in the field, eliminating the need to travel to central training centers. With anytime, anywhere access, you can cut overtime expenses by training in downtime during regularly scheduled hours.

Quickly develop and deliver timesensitive training. In crisis situations, information changes quickly—it's imperative to deliver new training to your first responders immediately. Rapidly develop and disseminate training for time-sensitive matters like crisis control and response. Even subject-matter experts who have never used Adobe Connect Training before can quickly develop content—without learning complicated course authoring software.

Rapidly coordinate response among dispersed organizations. Virtually and instantly connect your first responders to other city, state, and national teams. With the live, rich communica-

tion abilities of Acrobat Connect Professional, you can ensure a more coordinated response from diverse teams—regardless of where they are located or whether they have used Acrobat Connect before.

Make sure that interrupted training is no longer lost training. Training can be delivered either live or on-demand, so first responders can access training at their convenience. Emergency personnel don't need to miss virtually delivered live training sessions to respond to alarms or emergencies—they can easily resume their instruction after the crisis has been addressed.

Eliminate labor-intensive tracking. Ensure compliance by tracking completion and test scores using a convenient reporting dashboard. Easily get the statistics you need on course participation and success rates, and track the progress of individuals or groups.

System Requirements

Acrobat Connect Professional is available on a hosted subscription basis or as licensed software. For more information on system requirements, please see www.adobe.com/products/acrobatconnectpro
