

ADOBE® ACROBAT® CONNECT™ PROFESSIONAL for Health and Human Services

Better Health, Safety, and Well-Being Through Online Training and Communication.

Health and human services (HHS) agencies cover many diverse areas in delivering federal, state, and local programs. Services range from bioterrorist attack preparation to epidemic identification to administering social welfare programs. Agency personnel must stay current with new mandates requiring frequent training for compliance. They must also coordinate and collaborate with personnel from other agencies to provide the best and most appropriate services. They require flexible training and collaboration tools to be the most effective.

How to Buy

To receive more information about Adobe Acrobat Connect Professional, or to receive a free trial version, please contact your preferred reseller or your Adobe Government account manager at govsales@adobe.com or call **888-649-2990**.

Adobe Acrobat Connect Professional is available on the GSA and other purchasing vehicles.

Acrobat Connect Professional enables HHS agencies of all sizes to deliver robust and secure online training and collaboration. Your agency can create rich, interactive real-time communications, deployed in virtually any environment—field or office. You can also customize Acrobat Connect Professional to fit your specific HHS program, setting up, for example, a special training course for disaster preparation. The flexibility of Acrobat Connect Professional enables you to maximize your time and budget, while increasing overall productivity.

Anytime, Anywhere Training

In the field or office, HHS professionals continuously provide essential public services. With the constant work flow, training should meet your demanding schedule, not the other way around. Through the power of Flash® Player, Adobe Connect Training enables you to access online training when you want, where you want. Already embedded in 98% of commercial web browsers, Flash Player enables you to deliver realtime and on-demand training and communication. Because no special client-side software is needed beyond a basic web browser, it's easy to securely extend training and communication to even the most remote municipalities.

Rich, Interactive Training and Meetings

When learning how to implement effective social services programs, there's no substitute for first-rate training. But there is a substitute for static computer training. Adobe Connect Training transforms traditional computer training into an interactive environment, where quizzes, whiteboard, chat, VoIP, and video can be created to deliver a unique learning experience. And developing web conferencing and online training courses no longer requires a Medicare professional to have a technical background. Because Adobe Connect Training content is created using familiar office productivity tools, like Microsoft® PowerPoint®, anyone can create rich, narrated social services courses.

Effective Multiagency Communication and Collaboration

To prepare for a disease outbreak or bioterrorism attack, HHS agencies must be able to communicate with other organizations across the nation. Realtime, collaborative communications between all levels of government is no longer a nice option to have but a necessity. Acrobat Connect Professional securely connects professionals to vital information and other field representatives using any web browser, over virtually any bandwidth. Making it easy to extend deployment capabilities to field personnel using laptops or tablet PCs.

System Requirements

Acrobat Connect Professional is available on a hosted subscription basis or as licensed software. For more information on system requirements, please see www.adobe.com/products/acrobatconnectpro

Features and benefits of Adobe Acrobat Connect Professional include:

Microsoft PowerPoint Authoring of Self-Paced Content	Empower subject-matter experts throughout the organization to quickly develop narrated, self-paced e-learning content using Microsoft PowerPoint. Easily include voice-over and rich content, such as video, animations, or software demonstrations.
Quizzes	Easily add quizzes to course content and set pass/fail criteria. Question types include multiple-answer, true-false, and fill-in-the-blank questions, as well as short answer/essay questions and matching and rating scale (Likert) scenarios.
LMS Integration	Integrate Adobe Connect Training content with SCORM 1.2, SCORM 2004, and AICC-compatible systems to deliver and track courses through existing learning management systems.
Adobe and Third-Party Content Integration	Deliver content authored in other Adobe e-learning tools, including Captivate™, Authorware®, Dreamweaver® and Flash. Incorporate and track third-party AICC-compliant content.
Bookmarking	Learners can break at any time during a self-paced course and resume at their point of exit.
User Transcripts	Learners can view a history of all completed courses and curricula.
Live Virtual Classes	Conduct collaborative, live training sessions with instructors and learners in multiple locations. Leverage content for on-demand courses.
Integrated Internet and Audio Conferencing	Easily manage telephone audio conferencing or Internet conferencing (using VoIP) to communicate during live sessions.
Video and Audio Streaming	Ensure quality with adaptive video and audio streaming for both self-paced courses and live seminars. Include talking-head video of the trainers.
Virtual Class Recording	One-click recording of virtual classrooms ensures that course content is available for review. Recorded session archives can be searched by keyword for easy retrieval.
Always Available Meeting Rooms	Eliminate preparation time for recurring sessions by reusing meeting rooms. Acrobat Connect Professional automatically saves all meeting room layouts content.
Content Management	Manage course content using the Breeze content repository. Easily find, reuse, and update existing courses using keyword searches.
Course Management	Schedule courses, enroll learners, grant viewing permissions, automate enrollment notices and reminders, track learner statistics, and more.
Curriculum Management	Use an easy-to-use, wizard-based approach to combine multiple courses, content, and live classes into a single curriculum. Effortlessly define course prerequisites, specify optional and required modules, and establish progressive learning paths.
Data Tracking and Reporting	Ensure compliance by tracking completion and test scores using a convenient reporting dashboard. Get statistics on course participation and success rates. Track the progress of individuals or groups.
Certification	Set up automated certification criteria that assign unique learner certification numbers upon course completion.
Customization and Branding	Customize Acrobat Connect Professional self-paced courses and live meeting rooms with agency branding, including your business logo and colors.
Directory Service Integration	Acrobat Connect Professional Directory Services integration (Active Directory, LDAP) enables out-of-the-box integration with existing user management systems.
