

# Pentaho Corporation US Federal Government Initiatives

Pentaho Corporation is the commercial open source alternative for Business Intelligence (BI). Pentaho BI Suite Enterprise Edition provides reporting, analysis dashboards, data integration, and data mining that have made it the world's most widely deployed open source BI suite. Our commercial open source business model is well suited to the Federal Government because it eliminates software license fees and provides support, services, and product enhancements via a simple annual subscription, reducing the complexities of the proprietary software model.

## Naval Air Systems Command (NAVAIR)

### Project name

Military Flight Operations Quality Assurance (MFOQA)

### Project Description

MFOQA is a knowledge management process that uses flight data downloaded after every flight to provide the aircrew, the squadron and the fleet with quantitative information regarding aircrew and aircraft performance to improve training, operational readiness and safety. Pentaho BI Suite Enterprise Edition enables reporting and analysis of data from flight data recorders and avionics equipment.

### Technical Environment

BI: Pentaho BI Suite Enterprise Edition

OS: Windows 2003

DB: Oracle 10-11g

### Strategic Integrator

ManTech Systems Engineering Corporation

## National Science Foundation (NSF)

### Project name

NSF Information Resource Plan - Enterprise Management System - Enterprise Architecture Transition Strategy for NSF's Service Oriented Enterprise Architecture

### Project Description

The NSF Utilizes Pentaho Analysis Enterprise Edition to assist in the tracking of operational and aggregate data of various funding sources and for allocation to internal projects.

### Technical Environment

BI: Pentaho Analysis Enterprise Edition

OS: Windows

DB: SQL Server

### Systems Integrator

Booz Allen Hamilton

## Department of Education (DOE)

### Project name

BI Pilot Project currently underway

### Technical Environment

BI: Pentaho BI Suite Enterprise Edition

### Systems Integrator

AEM Corporation

## Department of Health and Human Services, Food and Drug Admin. (FDA)

### Project name

CARS for CDRH Ad hoc Reporting System

### Project Description

The FDA Center for Devices and Radiological Health, utilizes Pentaho Data Integration Enterprise Edition as a part the Center's Knowledge Management BI/DW system to develop standard templates to reduce data redundancy and to standardize records, to make critical data available for better decision making.

### Technical Environment

BI: Pentaho Data Integration Enterprise Edition

OS: Solaris

HW: Sun UltraSPARC

DB: Oracle 10g

### Systems Integrator

Dynanet Corporation

## Department of the Interior / US Geological Survey (USGS)

### Project name

Enterprise Planning Business Intelligence

### Project Description

Pentaho Analysis Enterprise Edition integrates with existing information currently managed separately by the USGS to provided enterprise planning business intelligence (EPBI) capabilities including dashboards, reporting, analytics, process Integration and workflow to provide deeper analysis of data and trends.

### Technical Environment

BI: Pentaho Analysis Enterprise Edition

### Systems Integrator

Northrop Grumman

## Defense Information Systems (DISA)

### Project name

JC2 - Joint Command and Control - Joint Operation Planning and Execution System (JOPES) & Status of Resources and Training System (SORTS)

### Project Description

JC2 increases interoperability via core NCES services to exchange data across multiple security domains to provide the warfighter with: critical command and control information; access to data from an increased number of primary sources; improved warfighting capability through an integrated, seamless, network-centric system. To improve efficiency, Pentaho Reporting and Analysis are utilized provide reports and analysis of DoD military equipment, troop deployment scheduling and logistics.

### Technical Environment

BI: Pentaho Reporting & Analysis Enterprise Editions

OS: Linux

HW: Sun, Web Logic App Server

DB: MySQL

### Systems Integrator

Pragmatics

## Partnering for Success with Pentaho

### Carahsoft – Certified US Government Reseller

Carahsoft is the exclusive General Services Administration (GSA) Schedule distributor for U.S. Government organizations that choose Pentaho's Open BI Suite or its individual components for business intelligence. Pentaho and Carahsoft work together to address the large and growing demand for Pentaho's open source business intelligence (BI) software in federal government organizations.

### Unisys – Certified Global Reseller

Unisys is a certified reseller of the Pentaho BI Suite Enterprise Edition, providing certified consulting services for Pentaho's market-leading commercial open source BI technology. The agreement grew out of multiple joint customer opportunities driven by strong demand for Pentaho's commercial open source BI capabilities combined with Unisys ability to deliver enterprise-ready solutions that take advantage of open source software
