

## Public Sector Procurement Vehicles & Contracts

Carahsoft serves as the master government aggregator and distributor for Splunk, helping provide government agencies with the leading software platform for real-time Operational Intelligence. Splunk® software and cloud services enable organizations to search, monitor, analyze, and visualize machine-generated big data coming from websites, applications, servers, networks, sensors, and mobile devices.

Carahsoft offers expertise in government procurement processes and practices, and holds Splunk-specific as well as state-, city-, county-, and contracts that accelerate procurement for government agencies. In addition, through GSA's Cooperative Purchasing Program, state, local, and tribal governments can purchase through GSA Schedule contracts.

Through these contracts, customers are able to procure end-to-end Splunk software, encompassing licenses/subscriptions, implementation and integration services. Contracts listed are either in process or available for Splunk to leverage.

## State and Local Government Contracts & Education Procurement Vehicles

Carahsoft also partners with resellers who focus on states and regions throughout the country. Through these teaming arrangements, Carahsoft and Splunk also have access to these vehicles.
