California Multiple Award Schedule Information:

The California Multiple Award Schedule (CMAS) offers a variety of commodity, non-IT Services, and information technology products and services. CMAS is optional contract source, but available to California State and Local Government agencies. All pricing, products, and/or services offered must have been previously bid and awarded on a Federal GSA schedule. The CMAS program doesn't "use" the GSA schedule, instead a totally independent California contract for the same products and services at equal or lower prices.
