This Agreement does not permit you to distribute the Operating System or its components using Red Hat's trademarks, regardless of whether the copy has been modified. Licensee may make a commercial redistribution of the Operating System only if (a) permitted under a separate written agreement with Red Hat authorizing such commercial redistribution, or (b) Licensee removes and replaces all occurrences of Red Hat trademarks. Modifications to the software may corrupt the Operating System. Licensee should read the information found at http://www.redhat.com/about/corporate/trademark/ before distributing a copy of the Operating System.

E. Export Laws: The Third Party Software may be controlled under the export laws and regulations of the United States. It is the obligation of the Licensee to abide by all applicable export restrictions and license requirements.

4. **SUREVIEW® ANALYTICS:** The following terms shall apply to the licenses of SureView Analytics:

4.1. Definitions: For the purposes of this Section 4 of Exhibit A, the following are defined terms:

"**Analytics User**" means a User who uses the Software solely for entity and link analysis and associated search functionality within the SureView Analytics platform.

"**Application Template**" means a framework that accelerates solution specific definitions and subsequent user access to information, including but not limited to creation of custom interfaces, unique workflows, and personalized reports.

"**Application User**" means a User who uses the Application Template to create solution specific definitions and subsequent user access to information, including but not limited to creation of custom interfaces, unique workflows, and personalized reports.

"**Concurrent User**" means the total number of Users simultaneously using the Software at any given time.

"**Enterprise**" means an immediate corporate entity only (i.e., does not allow for use by users of Licensee's affiliates).

"**Modeling Manager**" means a User who administers the system, creates connections to data sources and creates search views and analysis models.

"**Named User**" means a specific User within Licensee's organization. Licensee must be able to identify and count each Named User. A Named User does not have to be logged into the Software in order to be counted.

"**Search User**" means a User who requires only rudimentary search capabilities and not search associated with Analytical capabilities and models.

"**User**" means employee, contractor or agent authorized by Licensee to use the Software; provided, however that Licensee must have a written agreement with any such contractors or agents that requires such contractor or agent to comply with the terms and conditions of this Agreement in order for such contractor or agent to use the Software.

4.2 License Model(s) for SureView Analytics:

  4.2.1 The license model for the Software licensed is set forth in the Order. The description of each license model is set forth below.

    Development License: A Development License limits Licensee's use of the Software to internal application development, testing and support purposes only, and may not be used for productive use. Licensee shall be further limited to the terms of the appropriate license model for the Software set forth below.

    Evaluation License: An Evaluation License grants Licensee a temporary right to install and use the Software for the sole purpose of testing and evaluating the Software with respect to its effectiveness and suitability for Licensee's internal business activities, and may not be used for development or productive use. Licensee shall be further limited to the terms of the appropriate license model for the Software set forth below. Unless otherwise specified in the Order, the term of the Evaluation License is limited to thirty (30) days from delivery of the Software. Licensee acknowledges and agrees that the evaluation period/term may not be extended by uninstalling and re-installing the Software or by any other means other than Forcepoint's written consent.

    Concurrent User License: A Concurrent User License grants Licensee the right to allow up to the maximum number of Concurrent Users specified in the Order to access and use of the Software at any given time. For example, if Licensee purchases ten (10) Concurrent User Licenses, any ten (10) Users can use such licenses at the same time.

    Enterprise License: An Enterprise License grants Licensee the right to access and use the Software by any User within Licensee's Enterprise without a limitation on number of Users.

    Named User License: A Named User License grants Licensee the right to allow a Named User to access and use the Software. No more than one (1) person shall be a Named User or permitted to use the Software under the same license at the same time. A Named User Licenses does not allow for the use of concurrent, shared or multiple uses of an individual software license. A Named User License may only be transferred from one Named User to another Named User provided that the original Named User no longer requires and is no longer permitted to access the Software. The foregoing transfer right shall not affect the assignment prohibition set forth in Section 9.5 of the Agreement.

  4.2.2 SureView Analytics is licensed as follows:

    Analytics Users: Licenses for Analytics Users may be acquired on a Named User License basis or a Concurrent User License basis and unless otherwise specified in the Order licenses for Analytics Users are perpetual.

    Application Templates: Licenses for Application Templates may only be acquired on an Enterprise License basis and unless otherwise specified in the Order licenses for Application Templates are perpetual.

    Application Users: Licenses for Application Users may only be acquired on a Concurrent User License basis in packs of ten (10) concurrent users and unless otherwise specified in the Order licenses for Application Users are perpetual.

    Data Center Connectors: Licenses for the Data Center Connector may only be acquired on an Enterprise License basis and unless otherwise specified in the Order licenses for Application Templates are annual.

    Modeling Managers: Licensee must purchase a Concurrent User License for the initial Modeling Manager and all other subsequent licenses for Modeling Managers may be acquired on a Named

User License basis or a Concurrent User License basis. Unless otherwise specified in the Order licenses for Modeling Managers are perpetual.

Search Users: Licenses for Search Users may only be acquired on a Concurrent User License basis in packs of ten (10) concurrent users and unless otherwise specified in the Order licenses for Application Users are perpetual.

4.3   Additional Terms for SureView Analytics:

4.3.1   Export Restrictions for SureView Analytics: The Software is classified as U.S. Commerce Control List Category 5D002, pursuant to the Export Administration Regulations (EAR), Title 15 of the Code of Federal Regulations Parts 730 through 774. Export, re-export, or transfer of the Software or related technology from the United States is governed by the Export Administration Act of 1979, as amended. The Software and any technology may not be disclosed, exported, re-exported or transferred (including in-country transfer), in any manner, directly or indirectly: (i) to any country subject to U.S. economic sanctions that restrict trade or business with that country; (ii) to any person or entity on a restrictive list published by the U.S. Government, such as but not limited to the Specially Designated Nationals List, the Entity List, the Denied Persons List, the Debarred Parties List, and the Unverified List; (iii) for any end use that is prohibited by the United States or other applicable law, including nuclear, missile, chemical biological weaponry or other weapons of mass destruction; or (iv) to any foreign national (including foreign national employees of Licensee) or foreign country unless previously authorized by the U.S. Department of Commerce, and/or other governmental agencies, as appropriate. Licensee agrees to acquire all necessary export authorizations and to comply with the requirements of all applicable export and import laws and regulations prior to any disclosure, export, re-export, deemed export or transfer subject to the same. Forcepoint shall have no obligation to obtain such licenses or satisfy such requirements.

4.3.2   Except as the Software may be integrated with third party products in the form or manner provided to you by an authorized distributor of Forcepoint through which you have obtained access to the Software, you may not integrate the Software with any third party product without the prior written permission of Forcepoint, which may be granted or withheld in its sole discretion.

4.3.3   Licensee may not (i) make any statement that the Software is "certified," or that its performance is guaranteed, by Forcepoint, or (ii) unless expressly authorized in writing, use the name, logo or trademark of Forcepoint Company or Forcepoint, or their licensors, including in connection with any product containing the Software.

4.3.4   Third Party Software for SureView Analytics:

4.3.4.1   The Software may include Java technology which is subject to the following additional requirements:

A.   Licensee may not create, modify, or change the behavior of, or authorize Licensee's licensees to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or similar convention as specified by Oracle in any naming convention designation.

B.   Use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features identified in Table 1-1 (Commercial Features in Java SE Product Editions) of the Java SE documentation accessible at http://www.oracle.com/technetwork/java/javase/documentation/index.html.

C.   Export Laws: The Third Party Software may be controlled under the export laws and regulations of the United States. It is the obligation of the Licensee to abide by all applicable export restrictions and license requirements.

4.3.4.2   Notwithstanding anything to the contrary in this agreement above, the following additional terms and conditions shall apply to the Oracle JDBC Driver ("Oracle Driver") included in the Software:

A.   "Open Source" software - software available without charge for use, modification and distribution - is often licensed under terms that require the user to make the user's modifications to the Open Source software or any software that the user 'combines' with the Open Source software freely available in source code form. If you use Open Source software in conjunction with the Oracle Driver, you must

ensure that your use does not: (i) create, or purport to create, obligations of us with respect to the Oracle Driver; or (ii) grant, or purport to grant, to any third party any rights to or immunities under our intellectual property or proprietary rights in the Oracle Driver. For example, you may not develop a software program using an Oracle Driver and an Open Source program where such use results in a program file(s) that contains code from both the Oracle Driver and the Open Source program (including without limitation libraries) if the Open Source program is licensed under a license that requires any "modifications" be made freely available. You also may not combine the Oracle Driver with programs licensed under the GNU General Public License ("GPL") in any manner that could cause, or could be interpreted or asserted to cause, the Oracle Driver or any modifications thereto to become subject to the terms of the GPL.

8 GNU GENERAL PUBLIC LICENSE

Version 2, June 1991
Copyright (C) 1989, 1991 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

9 Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

10 TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work

under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

> **a)** You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

> **b)** You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

> **c)** If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

> **a)** Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

> **b)** Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

> **c)** Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface

definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

INNERVIEW
End User License Agreement

This End User License Agreement ("License") forms a part of the Agreement to which it is an Exhibit.

1.   Software is licensed and provided in executable format only, and is further defined, as appropriate by the context, any subsequent updates, upgrades, optional functionalities, capabilities, bug fixes and the like that may be provided hereunder. Subject to the terms and conditions set forth in this License and in the Agreement (including payment of all required fees), and provided Customer is and remains compliant with all terms and conditions herein, Seller grants to Customer a personal, limited, non-exclusive, nontransferable, term, fee-bearing license, without rights of sublicense, to use the Software for internal business purposes for the Term only by employees of the United States Government Agency or Site entering into the Agreement. Customer may use and reproduce copies of the Software and Documentation up to the quantity set forth in Schedule "A," plus one (1) additional copy for archival, disaster recovery, or back-up purposes. At no time shall Customer permit use of the Software in excess of the quantity limitation specified in Schedule "A." Customer shall maintain records of each copy reproduced, inclusive of physical location, and identity of the Customer's operator of the Software. Such records shall be made available for inspection by Seller upon a ten (10) day prior notice.

3.   Customer may only use the Software and Documentation as set forth herein and in the Territory set forth within Schedule "A."

4.   Customer acknowledges and understands that Seller is and shall remain the sole and exclusive owner of all right, title and interest in and to the Software and Documentation. The Software is licensed, not sold to Customer. Customer understands and agrees that in no event shall any term or condition set forth in this License be construed as a transfer of title or interest in, in whole or in part, of any Software or Documentation to Customer.

5.   The Parties acknowledge and agree that Customer may at any time during the Term, delay, interrupt or cease use of the Software, but this License shall continue in full force until expiration, unless terminated earlier by Seller for Customer's material breach that is not cured within fifteen (15) days of notice thereof.

6.   If the Software is being licensed under the terms of a proposal or agreement with the U.S. Government or any agency of the U.S. Government or any contractor or any other third party on the U.S. Government's behalf, the Software is classified as "Commercial Computer Software" and both the Software and the Documentation are developed exclusively at private expense, and (a) if acquired by or on behalf of a civilian agency, shall be subject to the terms of this License as set forth in FAR 12.212 or (b) if acquired by or on behalf of the Department of Defense shall be subject to the terms of this License as set forth in DFARS 227.7202..

7.   Software may include or may require the use of third party as identified in a read me file or attached as an attachment to this License, provided with Software. Third parties may have enforceable rights with respect to such third party software. Customer is responsible for procuring all commercial off-the-shelf (COTS) software required for use with Software.

8.   Warranty and Limitation of Liability.

a.   Warranty. Subject to all terms and conditions herein, the media on which the Software is provided shall be free from defects in materials and workmanship under normal use and service for a period of ninety (90) days from the delivery date (hereinafter "Media Warranty Period"), and Seller shall replace any defective media which is not in accordance with such warranty provided that it is notified in writing of the claimed defect during the Media Warranty Period.

b.   WARRANTY LIMITATION. THE WARRANTY SET FORTH IN THIS SECTION 8 IS THE ONLY WARRANTY MADE BY SELLER TO CUSTOMER IN CONNECTION WITH THE SOFTWARE (INCLUDING MEDIA), RELATED SERVICES OR DOCUMENTATION. NEITHER SELLER NOR ANY OF ITS SUPPLIERS OR LICENSORS MAKES ANY OTHER REPRESENTATION OR WARRANTY OF ANY KIND WHETHER EXPRESS OR IMPLIED (EITHER IN FACT OR BY OPERATION OF LAW) WITH RESPECT TO SUCH SERVICES, SOFTWARE (INCLUDING MEDIA), DOCUMENTATION OR OTHER MATERIALS PROVIDED BY SELLER OR ANY SERVICES PROVIDED

HEREUNDER. SELLER EXPRESSLY DISCLAIMS ALL STATUTORY OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF TITLE, NON-INFRINGEMENT, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE. SELLER DOES NOT WARRANT THAT THE SOFTWARE WILL MEET CUSTOMER'S NEEDS OR OPERATE IN COMBINATION WITH OTHER SOFTWARE (NOT SUPPLIED BY SELLER), NOR DOES SELLER WARRANT THAT THE SOFTWARE WILL OPERATE ON OR IN CUSTOMER'S SYSTEM, HARDWARE, OR ENVIRONMENT. FURTHER, SELLER DOES NOT WARRANT THAT THE SOFTWARE IS VIRUS-FREE, ERROR-FREE OR THAT OPERATION OF THE SOFTWARE WILL BE SECURE OR UNINTERRUPTED.

c. LIMITATION OF LIABILITY. SELLER'S LIABILITY WITH RESPECT TO ANY CLAIM, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE AND PRODUCT LIABILITY) OR OTHERWISE, ARISING OUT OF, CONNECTED WITH, OR RESULTING FROM THIS LICENSE, THE USE OF THE SOFTWARE OR, ANY SERVICES PROVIDED OR WARRANTY, SHALL IN ALL CASES BE LIMITED TO DIRECT MONETARY DAMAGES NOT EXCEEDING THE FEES PAID TO SELLER FOR THE SOFTWARE OR SERVICE WHICH CAUSED THE DAMAGE. WITHOUT LIMITING THE FOREGOING, SELLER, ITS SUPPLIERS, AND ANY PARTY INVOLVED IN THE PERFORMANCE OF THIS LICENSE ON BEHALF OF SELLER, INCLUDING THEIR EMPLOYEES, AGENTS, PARTNERS, REPRESENTATIVES, OR SUBCONTRACTORS, SHALL NOT BE HELD LIABLE FOR ANY: (A) DAMAGES CAUSED BY CUSTOMER'S FAILURE TO PERFORM ITS OBLIGATIONS UNDER THIS LICENSE; (B) INDIRECT, PUNITIVE, INCIDENTAL, SPECIAL, RELIANCE, EXEMPLARY, COVER OR CONSEQUENTIAL DAMAGES, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR REVENUE, LOST BUSINESS OPPORTUNITIES, LOST SAVINGS, LOST DATA, OR LOSSES FROM INTERRUPTION, TERMINATION, OR FAILED OPERATION OF SOFTWARE, SERVICES, THE INTERNET OR A TELECOMMUNICATION SERVICE, EVEN IF SUCH PARTIES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH LOSSES OR DAMAGES; (C) CLAIMS AGAINST THE CUSTOMER BY ANY THIRD PARTY; OR (D) TO THE MAXIMUM EXTENT PERMITTED UNDER LAW, PROPERTY OR PERSONAL INJURY DAMAGES, INCLUDING, BUT NOT LIMITED TO, PRODUCT LIABILITY DAMAGES. CUSTOMER ACKNOWLEDGES THAT ALL FEES PAYABLE BY IT UNDER THIS AGREEMENT AND LICENSE HAVE BEEN ESTABLISHED, IN PART, BASED ON THE LIMITED WARRANTIES AND LIMITATIONS OF LIABILITY SET FORTH HEREIN.

Addendum to End User License Agreement

1.   The InnerView license includes a specific number of clusters that can communicate to a not to exceed number of agents across an organization's enterprise – both operational and lab installations. The IV license does not cover deployment to assets owned, leased, or operated by other organizations, even if those assets are using licensee's image or disk.

2.   Licensee may not sublicense, sell, lease, assign, pledge, permit use of, give, lend, distribute, disclose, or in any way transfer the Software, documentation, or copies thereof, nor use the Software or documentation to act as a data processing bureau to provide data processing services to a third party, or other agency or site or organization. *"The InnerView software will be used on all computer assets owned, leased or operated by licensed organization across the entire enterprise both inside and outside the continental United States. The InnerView software will be used on both the classified and unclassified networks."*

Confidential Information may also include information disclosed to a Disclosing Party by third parties. Confidential Information will not, however, include any information which the Receiving Party can document (i) was publicly known and made generally available prior to the time of disclosure by the Disclosing Party or an authorized third party; (ii) becomes publicly known and made generally available after disclosure through no action or inaction of the Receiving Party in violation of any obligation of confidentiality; (iii) is already in the possession of the Receiving Party at the time of disclosure; (iv) is lawfully obtained by the Receiving Party from a third party without a breach of

such third party's obligations of confidentiality; or (v) is independently developed by the Receiving Party without use of or reference to the Disclosing Party's Confidential Information. Each party agrees that all Confidential Information of the other partywill be treated by the Receiving Party as non-public confidential information and will not be disclosed to any person other than Disclosing Party and employees and contractors of Receiving Party on a need to know basis and that Receiving Party will protect the confidentiality of such Confidential Information in the same manner that it protects the confidentiality of its own proprietary and confidential information, but in no event with less than a reasonable standard of care. Furthermore, each party agrees to only use the Confidential Information of the other party for purposes of carrying out its rights and obligations under this Agreement. However, the U.S. Government may be required to disclose confidential information pursuant to federal laws (i.e. FOIA).   In which case, the Government will provide the Disclosing Party a notice prior to disclosure.

5.2   Licensee will take all reasonable steps to safeguard the Software to ensure that no unauthorized person has access and that no unauthorized copy, publication, disclosure or distribution, in any form is made. The Software contains valuable, confidential information and trade secrets and unauthorized use or copying is harmful to Forcepoint. Licensee may use the Software only for the internal business purposes of Licensee. Licensee will not itself, or through any affiliate, employee, consultant, contractor, agent or other third party: (i) sell, resell, distribute, host, lease, rent, license or sublicense, in whole or in part, the Software; (ii) decipher, decompile, disassemble, reverse assemble, modify, translate, reverse engineer or otherwise attempt to derive source code, algorithms, tags, specifications, architecture, structure or other elements of the Software, in whole or in part, for competitive purposes or otherwise; (iii) allow access to, provide, divulge or make available the Software to any user other than Licensee's employees and individual contractors who have a need to such access and who are bound by nondisclosure obligations that are at least as restrictive as the terms of this Agreement; (iv) write or develop any derivative works based upon the Software; (v) modify, adapt, translate or otherwise make any changes to the Software or any part thereof; (vi) use the Software to provide processing services to third parties, or otherwise use the same on a 'service bureau' basis; (vii) disclose or publish, without Forcepoint's prior written consent, performance or capacity statistics or the results of any benchmark test performed on the Software; (viii) otherwise use or copy the same except as expressly permitted herein; (ix) use any third party software included in the Software independently from the Forcepoint proprietary Software. Subject to the terms of this Agreement, Licensee may allow its agents and independent contractors to use the Software solely for the benefit of Licensee; provided, however, Licensee remains responsible for any breach of this Agreement. Any other use of the Software by any other entity is forbidden and a violation of this Agreement. Licensee must not use the Software to filter, screen, manage or censor Internet content for consumers without permission from the affected consumers and Forcepoint's express prior written approval which may be withheld in Forcepoint's sole discretion. If any additional third party end-user license terms and conditions are attached to this Agreement or the Order, Licensee's use of the third party software is further restricted by and subject to the third party licensor's end-user license terms andconditions.

Except as otherwise expressly specified in the Order, all recurring payment obligations start from the execution of the Order. Forcepoint may increase recurring fees at any time upon 60 days written notice. Unless otherwise specified in the Order, payment of all fees is due 30 days after the invoice date. Interest accrues on past due balances at the lesser of 1½% per month or the highest rate allowed by law. Failure to make timely payments is a material breach of the Agreement and Forcepoint will be entitled to suspend any or all of its performance obligations hereunder in accordance with the provisions of Section 10 and to modify the payment terms, including requiring full payment before Forcepoint performs any obligations in this Agreement. Licensee will reimburse Forcepoint for any expenses incurred, including interest and reasonable attorney fees, in collecting amounts due to Forcepoint hereunder that are not under good faith dispute by Licensee. Amounts paid or payable for Software is not contingent upon the performance of any consulting or other professional services. Forcepoint's reasonable travel and lodging expenses incurred by Forcepoint in the performance of services on Licensee's site will be billed separately at actual cost. Licensee is responsible for payment of all taxes (excluding those on Forcepoint's net income) arising out of this Agreement, except to the extent a valid tax exemption certificate or other written documentation acceptable to Forcepoint to evidence Licensee's tax exemption status is provided by Licensee to Forcepoint prior to the delivery of Software orservices.

7.   Limited Warranty; Remedies; Disclaimer.
7.1   For ninety (90) days beginning on the date of the Order for the License, Forcepoint warrants that the original media (if any) containing the Software is free from defects in material and workmanship, assuming normal use. As the sole and exclusive remedy for defective media, Forcepoint will replace it free of charge if claimed during the 90-day warranty period. The limited warranty specified in this Section 7 sets forth Forcepoint's entire liability and Licensee's exclusive remedy for breach of warranty.
7.2   EXCEPT FOR THE ABOVE LIMITED MEDIA WARRANTY, THE SOFTWARE IS PROVIDED "AS IS" AND FORCEPOINT AND ITS LICENSORS DISCLAIM ALL PROMISES, REPRESENTATIONS, AND WARRANTIES WITH RESPECT TO THE PERFORMANCE, OPERATION, RESULTS, USE OF, OR INABILITY TO USE THE SOFTWARE, AND ANY DATA OR OTHER MATERIALS FURNISHED HEREUNDER. EXPRESS OR IMPLIED, WITH RESPECT TO THE PERFORMANCE, OPERATION, RESULTS, USE OF, OR INABILITY TO USE THE SOFTWARE AND ANY DATA OR OTHER MATERIAL FURNISHED HEREUNDER INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, NON- INFRINGEMENT, TITLE OR FITNESS FOR A PARTICULAR PURPOSE, AND FREEDOM FROM PROGRAM ERRORS, VIRUSES OR ANY OTHER MALICIOUS CODE WITH RESPECT TO THE SOFTWARE AND SERVICES PROVIDED UNDER THIS AGREEMENT.

IN NO EVENT WILL FORCEPOINT'S AGGREGATE LIABILITY ARISING OUT OF OR RELATED TO THIS AGREEMENT EXCEED THE TOTAL AMOUNT ACTUALLY RECEIVED BY FORCEPOINT FROM LICENSEE OVER THE ONE YEAR PERIOD PRIOR TO THE EVENT OUT OF WHICH THE CLAIM AROSE FOR THE SOFTWARE THAT DIRECTLY CAUSED THE LIABILITY. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Government Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

9.   Indemnification. In the event of a third-party claim, suit or proceeding against Licensee asserting that use of the Software as permitted in this Agreement infringes a third-party's patent, copyright, or trademark right recognized in any jurisdiction where the Software is used, Forcepoint at its expense will defend Licensee and indemnify Licensee against costs, expenses (including reasonable attorneys' fees), and damages payable to any third party in any such suit or cause of action that are directly related to that claim. Forcepoint's obligation under this Section is contingent upon Licensee providing Forcepoint with: (a) prompt written notice of the suit or claim; (b) the right to control and direct the defense of the claim to the extent permitted by 28 U.S.C. 516; and (c) reasonable cooperation with Forcepoint. Forcepoint will have no liability for any claim of infringement resulting from: (i) modification of the Software by anyone other than Forcepoint; (ii) a combination of the Software with other hardware or software not provided by Forcepoint; or
(iii) failure by Licensee to implement Software Updates. In the event the Software, in Forcepoint's opinion, are likely to or does become the subject of a claim of infringement, Forcepoint may at its sole option and expense: (x) modify the Software to be non-infringing while preserving equivalent functionality; (y) obtain a license for Licensee's continued use of the Software; or (z) terminate this Agreement and the license granted hereunder, accept return of the Software and refund to Licensee the unused pre-paid Maintenance Fees paid for the affected Software applicable to the balance of the then current Maintenance Term. THIS SECTION SETS FORTH FORCEPOINT'S ENTIRE LIABILITY AND OBLIGATION AND LICENSEE'S SOLE AND EXCLUSIVE REMEDY FOR ANY INFRINGEMENT OR CLAIMS OF INFRINGEMENT BY THE SOFTWARE.

10. Term and Termination.
10.1   This Agreement continues in full force and effect until the expiration or termination of the Order(s), unless otherwise terminated earlier as provided hereunder. All Orders are non-cancellable, and there will be no fee adjustments or refunds for any reason, including decreases in usage, or otherwise. Upon termination or expiration of the Maintenance Term, Licensee's right to receive Maintenance to the Software terminates, and upon termination or expiration of the Subscription Term Licensee's right to use the Software terminates.
10.2   Software evaluation licenses are available for a period of up to thirty (30) days and are subject to the terms and conditions of this Agreement, except however that (i) evaluation licenses may only be used to evaluate and facilitate Licensee's decision to purchase a license to the Software, and (ii) evaluation licenses are provided by Forcepoint on an AS IS and AS AVAILABLE basis without warranties of any kind. At the end of the evaluation period, Licensee must place an Order and pay the applicable Fees or this Agreement terminates as related to the evaluation. Licensee's continued use of the Software after an evaluation period is subject to this Agreement.
10.3   Sections 1, 4- 10, and 12-15 will survive the termination of this Agreement.

11. Compliance with Laws. Each party will comply with all applicable laws and regulations, including those of other jurisdictions that may apply concerning the protection of personal data, and anti-bribery. Licensee must obtain any required consents (including employee consent addressing the interception, reading, copying or filtering of emails and their attachments)and any local government permits, licenses, or approvals required to use the Software. Neither party will use any data obtained via the Software for any unlawful purpose.

12. Rights of Government Licensees. The Software meets the definition of "commercial item" in Federal Acquisition Regulation ("FAR") 2.101, were developed entirely at private expense, and are provided to Government Licensees exclusively under the terms of this Agreement. Software, including Software Updates, is "commercial computer software" and applicable Documentation and media are "commercial computer software documentation," as those terms are used in FAR 12.212 and DFARS 227.7202. Use of the Software by the U.S. Government constitutes acknowledgment of Forcepoint's proprietary rights therein, and of the exclusive applicability of this Agreement.

13. Export. The Software are subject to export controls of the United States and, when applicable, European Union export laws (including without limitation Council Regulation (EC) No. 428/2009 (as amended), applicable UN resolutions/EU regulations imposing restrictive measures/trade sanctions/embargoes or other restrictions on exporting goods or services and the export/import regulations of other countries ("Export Controls"). Export or diversion contrary to U.S. and E.U. law is prohibited. U.S. and E.U. law prohibits export or re-export of the software or technology to specified countries or to a resident or national of those countries ("Prohibited Country" or "Prohibited Countries"). It also prohibits export or re-export of the software or technology to any person or entity on the U.S. Department of Commerce Denied Persons List, Entities List or Unverified List; the U.S. Department of State Debarred List; or any of the lists administered by the U.S. Department of Treasury, including lists of Specially Designated Nationals, Specially Designated Terrorists or Specially Designated Narcotics Traffickers or listed in any restrictive measures (sanctions) lists administered by the EU including without limitation regulations based on Article 215 TFEU and decisions adopted in the framework of the Common Foreign and Security Policy) (collectively, the "Lists"). U.S. and E.U. law also prohibits use of the software or technology with chemical, biological or nuclear weapons, or with missiles ("Prohibited Uses"). 14. Compliance. Without prejudice to Forcepoint audit rights pursuant to this Section, upon Forcepoint's request Licensee will document and certify that use of the Software is in full conformity with the use rights granted under this Agreement and the applicable Order. During the term of this Agreement and for a period of one year following its termination, Licensee will maintain and make available to Forcepoint records sufficient to permit Forcepoint or Forcepoint's independent auditor to verify, upon ten days' written notice, Licensee's compliance with this Agreement. Licensee will provide reasonable assistance, personnel, access to Forcepoint components with Licensee's systems, and information necessary to facilitate the timely completion of Forcepoint's compliance verification. The audit will be performed during regular business hours. Licensee will promptly cure any noncompliance, including without limitation payment of any and all fees owed to Forcepoint during the period of noncompliance. The rights and remedies under this Section are in addition to any other rights Forcepoint may have under this Agreement. Additionally, Forcepoint may at any time, without notice, during the term of this Agreement access Licensee's system, subject to applicable local law, to determine whether Licensee and its users are in compliance with this Agreement. Licensee acknowledges that the Software may include a license manager component to track usage of the Software and agrees not to impede, disable or otherwise undermine such license manager's operation.

15. General. For the purposes of customer service, technical support, and as a means of facilitating interactions with its end-users, Forcepoint may periodically send Licensee messages of an informational or advertising nature via email, and provide account information to related third-parties (e.g. Licensee's reseller). Information will be processed by Forcepoint in accordance with the Privacy Policy and applicable data privacy laws. Licensee may choose to "opt-out" of receiving these messages or information sharing by sending an email to Opt-Out Email requesting the opt-out. Licensee acknowledges and agrees that by sending such email and "opting out" it will not receive emails containing messages concerning upgrades and enhancements to Software. However, Forcepoint may still send emails of a technical nature. Licensee acknowledges that Forcepoint may use Licensee's company name only in a general list of Forcepoint customers. Forcepoint owns any suggestions, ideas, enhancement requests, feedback, or recommendations provided by Licensee relating to the Software. Forcepoint may use non-identifying and aggregate usage and statistical information related to Licensee's and its users' use of the Software for its own purposes outside of the Agreement. Licensee may not transfer any of Licensee's rights to use the Software or assign this Agreement to another person or entity, without first obtaining prior written approval from Forcepoint. Any notice required or permitted under this Agreement or required by law must be in writing and must be (i) delivered in person, (ii) sent by first class registered mail, or air mail, as appropriate, or (iii) sent by an internationally recognized overnight air courier, in each case properly posted and fully prepaid.

Notices sent to Forcepoint must be sent to the attention of the General Counsel at 10900-A Stonelake Blvd., 3rd Floor, Austin, TX 78759 USA. Notices are considered to have been given at the time of actual delivery in person, two (2) business days after deposit in the mail as set forth above, or one (1) day after delivery to an overnight air courier service. Either party may change its contact person for notices and/or address for notice by means of notice to the other party given in accordance with this paragraph. Any

dispute arising out of or relating to this Agreement or the breach thereof will be governed by the federal laws of the United States. This Agreement constitutes the entire agreement between the parties regarding the subject matter herein and the parties have not relied on any promise, representation, or warranty, express or implied, that is not in this Agreement. Licensee agrees that its purchases hereunder are neither contingent on the delivery of any future functionality or features nor dependent on any oral or written comments made by Forcepoint regarding future functionality or features. Any waiver or modification of this Agreement is only effective if it is in writing and signed by both parties or posted by Forcepoint at: Legal Information. All pre-printed or standard terms of any Licensee's purchase order or other business processing document have no effect, and the terms and conditions of this Agreement will prevail over such forms, and any additional, inconsistent, conflicting, or different terms in such forms will be void and of no force and effect. In the event of a conflict between the terms of this Agreement and the terms of an Order, the terms of this Agreement prevail. If any part of this Agreement is found invalid or unenforceable by a court of competent jurisdiction, the remainder of this Agreement will be interpreted so as reasonably to affect the intention of the parties. Forcepoint is not obligated under any other agreements unless they are in writing and signed by an authorized representative of Forcepoint.

Third-Party End-User License Terms and Conditions

Third Party Software for SureView Analytics:
A.   The Software may include Java technology which is subject to the following additional requirements:
A.1   Licensee may not create, modify, or change the behavior of, or authorize Licensee's licensees to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or similar convention as specified by Oracle in any naming convention designation.
A.2   Use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. "Commercial Features" means those features identified in Table 1-1 (Commercial Features in Java SE Product Editions) of the Java SE documentation accessible at http://www.oracle.com/technetwork/java/javase/documentation/index.html.
A.3   Export Laws: The Third Party Software may be controlled under the export laws and regulations of the United States. It is the obligation of the Licensee to abide by all applicable export restrictions and license requirements.
B.   Notwithstanding anything to the contrary in this agreement above, the following additional terms and conditions will apply to the Oracle JDBC Driver ("Oracle Driver") included in the Software:
B.1   "Open Source" software - software available without charge for use, modification and distribution - is often licensed under terms that require the user to make the user's modifications to the Open Source software or any software that the user 'combines' with the Open Source software freely available in source code form. If you use Open Source software in conjunction with the Oracle Driver, you must ensure that your use does not: (i) create, or purport to create, obligations of us with respect to the Oracle Driver; or (ii) grant, or purport to grant, to any third party any rights to or immunities under our intellectual property or proprietary rights in the Oracle Driver. For example, you may not develop a software program using an Oracle Driver and an Open Source program where such use results in a program file(s) that contains code from both the Oracle Driver and the Open Source program (including without limitation libraries) if the Open Source program is licensed under a license that requires any "modifications" be made freely available. You also may not combine the Oracle Driver with programs licensed under the GNU General Public License ("GPL") in any manner that could cause, or could be interpreted or asserted to cause, the Oracle Driver or any modifications thereto to become subject to the terms of the GPL.

Third Party Software for Forcepoint Data Guard:
A.   The Software may integrate the McAfee Anti-Virus SDK Virus Scanning software library ("McAfee Software") provided by McAfee Inc. ("McAfee"), and the McAfee Software is provided pursuant to and governed by the terms and conditions of the Agreement except as follows:
a.   Licensee may not use or copy McAfee Software except as expressly provided herein, and except with McAfee's prior written permission, may not publish any performance or benchmark tests or analysis relating to McAfee Software.

b.   McAfee Software may include programs or code that are licensed under an Open Source Software ("OSS") license model. OSS programs and code are subject to the terms, conditions and obligations of the applicable OSS license, and are SPECIFICALLY EXCLUDED FROM ANY WARRANTY AND SUPPORT OBLIGATIONS DESCRIBED ELSEWHERE IN THIS AGREEMENT.
c.   Without prejudice to Licensee's payment obligations, Forcepoint may terminate Licensee's license to McAfee Software at any time by in the event Licensee materially breaches the terms of this Agreement and Licensee fails to cure such breach within thirty (30) days of receiving notice of such breach. Upon such termination Licensee shall promptly de-install and return or destroy all copies of McAfee Software and related documentation.

d.   Licensee acknowledges and agrees that the virus scanning capability of the Software may contain functionality to detect and report threats and vulnerabilities on Licensee's computer network. Such functionality may collect information from Licensee and automatically collect information about Licensee's system and the systems and networks they interact with (including without limitation information regarding network, licenses used, operating system types, versions, total scanners deployed, database size etc.) and submit such information to McAfee. Licensor shall not release any information collected regarding Licensee's systems and the systems and networks they interact with to any person or entity.

e.   McAfee Software and any accompanying documentation, which have been developed at private expense and are made generally available to certain private (non-government) end user customers, are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, pursuant to DFARS Section 227.7202 and FAR Section 12.212, as applicable.

B.   The Software may include Red Hat Enterprise Linux software ("Operating System") provided by Red Hat, Inc. ("Red Hat"), and the Operating System is provided pursuant to and governed by the terms and conditions of the Agreement except as follows:

a.   Subject to the following terms, Licensee is granted a perpetual, worldwide license to the Operating System (which may include multiple software components) pursuant to the GNU General Public License v.2. The license agreement for each software component is located in the software component's source code and permits Licensee to run, copy, modify, and redistribute the software component (subject to certain obligations in some cases), both in source code and binary code forms, with the exception of (a) certain binary only firmware components and (b) the images identified in Subsection B.b., below. The license rights for the binary only firmware components are located with the components themselves. This Agreement pertains solely to the Operating System and does not limit Licensee's rights under, or grant Licensee rights that supersede, the license terms of any particular component.

b.   Title to the Operating System and any component, or to any copy, modification, or merged portion shall remain with Red Hat and other licensors, subject to the applicable license. The "Red Hat" trademark and the "Shadowman" logo are registered trademarks of Red Hat in the U.S. and other countries. This Agreement does not permit Licensee to distribute the Operating System or its components using Red Hat's trademarks, regardless of whether the copy has been modified. Licensee may make a commercial redistribution of the Operating System only if (a) permitted under a separate written agreement with Red Hat authorizing such commercial redistribution, or (b) Licensee removes and replaces all occurrences of Red Hat trademarks. Modifications to the software may corrupt the Operating System. Licensee should read the information found at http://www.redhat.com/about/corporate/trademark/ before distributing a copy of the Operating System.

c.   The Operating System may be distributed with third party software programs that are not part of the Operating System. These third party programs are not required to run the Operating System, are provided as a convenience to Licensee, and are subject to their own license terms. The license terms either accompany the third party software programs or can be viewed at http://www.redhat.com/licenses/thirdparty/eula.html. If Licensee does not agree to abide by the applicable license terms for the third party software programs, then Licensee may not install them. If Licensee wishes to install the third party software programs on more than one system or transfer the third party software programs to another party, then Licensee must contact the licensor of the applicable third party software programs.
