How to Request New Software/Training

- New License & Training requests are made through CHESS License Tracker for Software (LTS)
- ALL MACOMs **MUST** complete CHESS ELA Appointment Form to designate G6 & G8 Approvers and Trusted Agents
  - Requests will not be able to be processed until forms are completed
  - Trusted Agents (TA) will be granted access to download software
- **New License:**
  - Requests will be approved by MACOM G6, G8 and CHESS
  - ITAS waivers are required for server and datacenter related products
  - Refer to ITAS waiver memos issued 6 Jun 2013 & 14 Aug 2013
  - New licenses **WILL** derive a **COST** for the requesting MACOM upon option year renewals
- **Training:**
  - Requests will be approved by MACOM G6 and CHESS
  - Customer should only request **ONE** course at a time
    - Requests for multiple courses at once will be **DENIED**
  - When request is approved customer will be contacted by VMware with voucher and next steps
  - Training is open to Army military, civilians and contractors
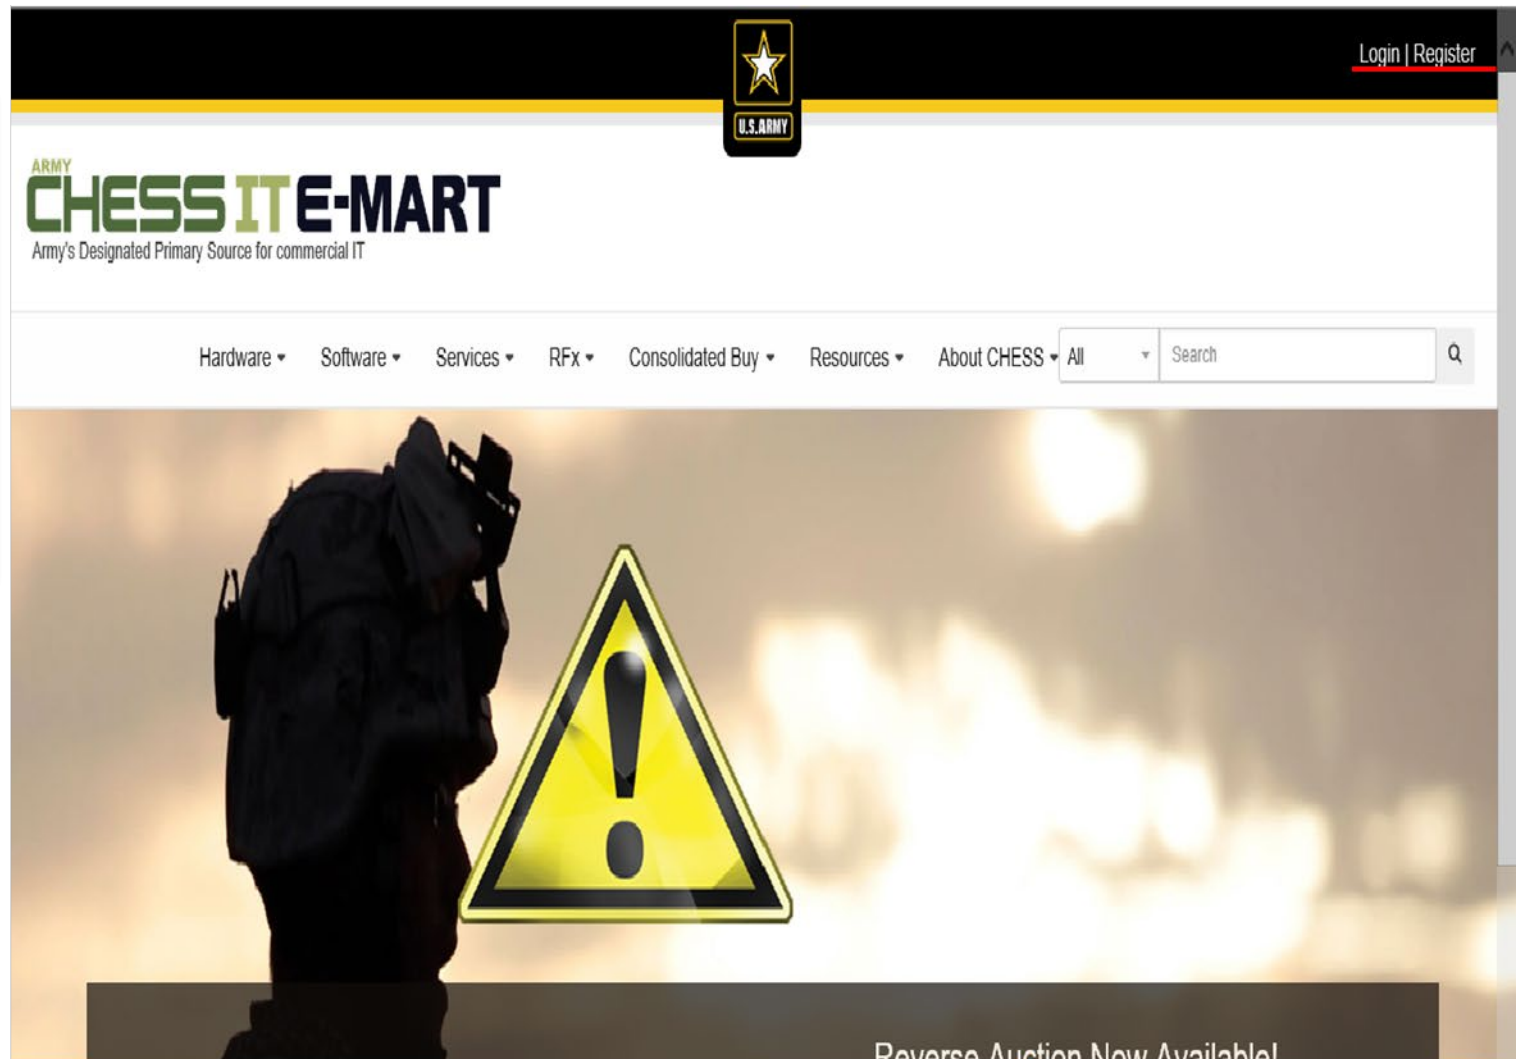

How to access CHESS LTS

- Customers must have a CHESS account to use LTS
- Go to https://chess.army.mil and login to your CHESS account
  - If you do not have an account click the "Register" button on the top right and complete registration
- Next steps (pictures on following slides):
  - Go to "Software Agreements" via the "Software" tab
  - Click "License Tracker for Software"
  - Click "Access License Tracker"
  - Click "Create" for new requests
    - Fill out form and submit

Login to the CHESS IT e-mart

You must first:
Login to the CHESS IT E-Mart to access the License Tracker for Software (LTS)

https://chess.army.mil/

Access CHESS

Hover over Software to access dropdown and select "**License Tracker for Software (LTS)**" to continue

Access LTS

Click "Access License Tracker" to continue

For more detailed information about LTS see the CHESS LTS guide under Helpful Documents

License Tracker for Software

Welcome to the License Tracker for Software
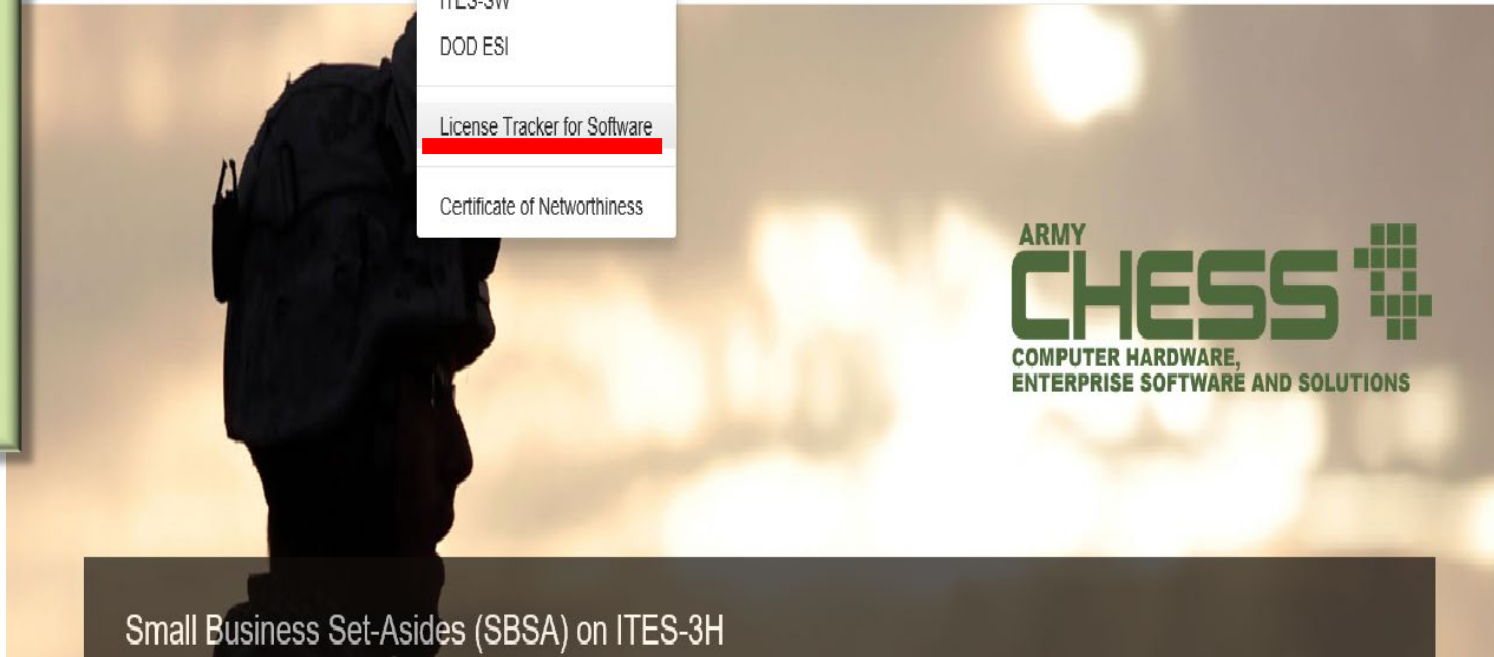

Pursuant to Army goals to streamline acquisitions and generate significant cost avoidance in software procurements through centrally negotiated and purchased Commercial Off the Shelf (COTS) software for use across the Enterprise, the Army currently has several Enterprise License Agreements (ELAs). In order to deliver improved efficiencies while reducing management overhead costs for the ELAs, the Product Lead, Computer Hardware Enterprise Software and Solutions (PL CHESS) has established a License Tracker for Software to centrally manage some of these agreements.

Please click the Access License Tracker Button Below to get started.
